-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

1. Claims 39-43 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected Group II, there being no allowable generic or linking claim.

Applicant timely traversed the restriction (election) requirement in the reply filed on 6/14/05.

It is noted that Applicant failed to provide arguments regarding his traversal of the restriction requirement.

2. This application contains claim 39-43 drawn to an invention nonelected with traverse on 6/14/05. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 21-38 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 6,748,502 (hereinafter "Watanabe") in view of U.S. Patent No. 6,829,593 (hereinafter "Ritter").

Watanabe discloses a system and method for providing data storage service by allocating users a volume of storage (see column 3, lines 53-67). Watanabe discloses storage areas

Art Unit: 3627

including disk space (static) and cache (see Figure 3). Additionally, Watanabe discloses tracking data storage by the size of “Total” storage, “Used” storage, and “Free” storage (see column 8, lines 27-33).

Watanabe fails to explicitly point out how customers are billed for the data storage service.

Ritter discloses billing customers for data storage by either the reserved memory area (the total used and unused area) or the storage area actually used (see column 5, lines 21-38).

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Watanabe with the billing feature taught by Ritter, because billing for both the used and unused storage areas allows the service provider to receive income for the entire allotment of memory that must be left available for the customer’s use.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure.

Yamamoto et al. is cited of interest for disclosing method and system for time-based storage access services.

Ellis et al. is cited of interest for disclosing a system for storage interconnect and emerging storage service providers.

O’Neill’s online article (8/2000), *What to expect from SSPs*, is cited of interest for disclosing basic services offered by storage service providers.

Art Unit: 3627

Moore's online article (5/2000), *First ISP, Then ASP Now SSP!*, is cited of interest for disclosing basic services offered by storage service providers.
